LINK BY LINK

(Connections made by people with omoiyari spirit)

The "Link by Link" project has been designed to recognize strong bond that the APCC instills within all participants. Members of the BCIO will contribute to "Link by Link" by sharing their stories of mate-ship after each meet-up, either physically or online. By sharing these stories online, we will encourage the active involvement of all members and continue to develop and grow our international organization.

GUIDELINES:

- The interaction could be a physical visit or real time online communication
- The interaction could be between members from the same BC or different BCs.
- After the meet-up each of the participants writes a story about the meeting in the template form and sends it to BCIO.
- Participant must attach a maximum of 3 photos.
- BCIO will upload the story to the Link by Link Blog.
- Participants must post a line about the story to their "Life Events" on their Doors+ account.
